Certificate in Insurance

Overview
The Level 3 Certificate in Insurance is a core qualification for insurance staff working across all sectors of the industry. It provides a fundamental grounding of the key insurance principles, disciplines, products and markets, including the regulatory environment, key disciplines of underwriting and claims, in addition to popular products such as motor, household, healthcare and packaged commercial insurances.

The Certificate develops the knowledge and confidence needed as you begin to specialise your studies according to your ambitions and career requirements.

Completion requirements
The Certificate requires a minimum of 40 CII credits for successful completion. Candidates must study one core unit: IF1, or both LM1 and LM2. It is recommended that non-UK candidates study W01 as their core unit, and Hong Kong candidates should take WH1 as their core unit.

| (IF1) Insurance, legal and regulatory | 15 credits | OR | Award in London Market Insurance: (LM1) London market insurance essentials AND (LM2) London market insurance principles and practices 25 credits | OR | (W01) Award in general insurance (non-UK) OR (WH1) Award in general insurance (Hong Kong) 15 credits |

Core
The remaining credits can come from any units within the insurance qualifications framework. i.e. WH1 (core unit 15 credits) + WCE (optional unit 15 credits) + WUE (optional unit 15 credits)

However, please note the following restrictions:
• Due to the extent of syllabus overlap between IF1, LM1 and W01, achieving more than one of these units will receive only one award of credits.
• If you choose (LM1 + LM2) as your core unit, studying LM3 to satisfy the remaining credit requirement will achieve the Certificate in London Market Insurance, instead of the Certificate in Insurance.

We recommend that you sit the required core unit(s) first as these provide foundation knowledge upon which the others build. Credits achieved via the Certificate can be used towards further CII qualifications.
