

Continuing Professional Development Certificate

FCA Business Interruption Insurance Test Case

Date Thursday 27 May 2021

Time 1.00 pm - 2.00 pm

Speaker Gavin Kealey QC, Barrister, 7 Kings Bench Walk Chambers

In this IIL property webinar, Gavin Kealey discussed the essential causal connection between the insured peril and the loss said to be covered by the policy.

By the end of this webinar, members would have gained an insight into:

- The general principles of causation in insurance
- The tension or absence of tension (depending on one's perspective) in the law between (i) the generally accepted principles of causation in insurance and (ii) the parties' bargain as embodied in the contract of insurance
- How two perils, one insured and another uninsured, operating independently of each other to cause a loss, may give rise to coverage even where the loss would have been caused even if the insured peril had not occurred
